

Create brilliant photos, animations and WEB3D content from your CAD data!

AMAZING 3D-VISUALISATIONS IN A FEW MINUTES

KeyShot

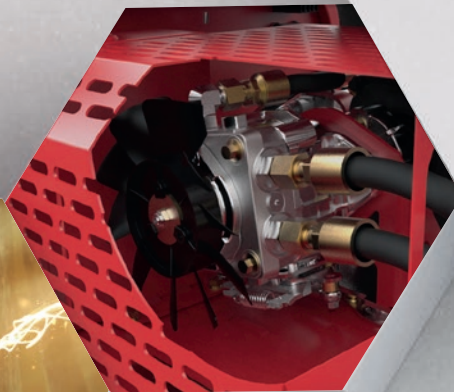

KeyShot offers everything you need to quickly create accurate and amazing visualisations – from physically correct materials and pre-defined environments to animations and AR / VR experiences. With KeyShot you can create the perfect image in record time. Product visualisations and Web3D files for marketing, sales and documentation has never been so easy!

FAST, SIMPLE, POWERFUL, PRECISE

With KeyShot you simply load your models and environments, and in no time at all you can experience rendering to perfection.

What previously required a lot of effort, time and know-how can now be done by just about everyone in your team. In minutes, not hours or days!

KeyShot is built on the most realistic rendering engine which results in stunning realism and incredible accuracy for your 3D data.

FUNCTIONS AND FEATURES

- Individual parts of assemblies are movable, e.g. for Exploded views
- Material templates for automatic assignment
- Integrated HDR environment editor
- Dynamic positioning of stickers and labels
- Many CAD interfaces e.g. for Creo, SolidWorks, Rhinoceros, SolidEdge, Inventor, ALIAS, CATIA, AutoCAD, SketchUp, Siemens NX, Maya
- Supports 3D data such as IGES, STEP, Parasolid, FBX, Collada
- Export of GLB / glTF, USDz, 3MF und FBX
- VR Support
- Configurator
- Soft materials (clothing)
- Support of deformation animations
- Also available for MAC OS

(not all functions are included in the basic version)

KEYSHOT MODULES & ADD-ONS

Animation (Pro-Version)

- Show and hide components
- Camera animation
- Translation and rotation of components
- Animation Wizard
- Flexibility with / without keyframe animations
- Exports AVI, MPEG, GIF format, etc.
- Mirror and duplicate
- Material animation
- Environment animation

KeyShotWeb

- Interactive 3D representation of your product
- Export as web configuration
- Export as iBooks Widget

Network Rendering Add-on

- Accelerate your work processes thanks to distributed background rendering

BENEFITS OF KEYSHOT AND INNEO

- Desktop rendering for everyone
- Quick to learn - without expert knowledge
- Results in minutes, not hours
- High-resolution images for impressive marketing, sales and service documents
- Save yourself complex, cost-intensive photo shoots, prototypes and color variations
- INNEO is the largest KeyShot partner worldwide
- Everything from one source: software, hardware, training, support with own hotline

KEYSHOT TRAINING

Get the most out of KeyShot by attending a customised training workshop.
